## GERMANY WILL NOT BE PERMITTED TO ESTABLISH A NAVAL BASE

Great Britain Will Resist Any Attempt on Part of Kaiser to Gain Foothold Near Important Point.

(By Evening Herald A. P. Leased Wire) London, July 26.—That Germany will get communication in South Africa as a result of her descent on Agadir in return for the free hand which France is seeking in Morocco is considered here but it is also clear that Great Britain is not going to permit the establishment of a German naval base on the west coast of Africa if she can prevent it.

The activity of the foreign office today was again marked, the indications pointing to the near approach of a stage where the crisis either will become acutely violent or begin to subside.

Under an arrangement it reached in the meantime, the Atlantic fleet will be sent back, probably, to its base of Gibraltar at the end of the week.

France Non-Committal. Paris, July 26.—The foreign office refrains from all communications to the press regarding the Franco-German negotiations but it is understood here that the situation is very unsatisfactory. The status of the negotiations might almost be described as a deadlock.

## HALF MILLION IS TO BE SUBSCRIBED TO UNION FUND

Labor Leaders Issue Appeal to Two Million Members of Unions to Contribute to Defense of McNamara.

(By Evening Herald A. P. Leased Wire) Washington, July 26.—An appeal for \$500,000 funds to defend J. J. McNamara, the labor man accused of kidnapping, has been issued by Secretary Morrison of the American Federation of Labor to the two million members of labor unions. He suggests that each member contribute twenty-five cents.

It is also urged that the proceeds of labor day celebrations this year be devoted to "the legal defense of the McNamara case and the prosecution of the kidnapers."

Another clash occurred when Ramsey asked Keeley if he was "after" Lorimer rather than Lee O'Neil Browne.

"It was not after Lorimer," Keeley explained. "I believed that Senator Lorimer was not in his position in the United States senate by legal and proper means."

"Did you ever study law?" "No, but I have studied civil history."

"Would you mind telling us more?" "Not in association with you."

Such a burst of laughter from spectators filled the room that Senator Fletcher declared there must be no more such disturbances.

## CHICAGO PACKERS MAY BE ASKED TO TESTIFY IN LORIMER CASE

Keeley, Star Witness for Prosecution, Says Heads of Stock Companies May Enlighten Committee.

### HEARING TODAY IS REplete WITH CLASHES

General Manager of Chicago Tribune Under Cross Examination By Lorimer's Attorneys; Witness is Wary.

(By Evening Herald A. P. Leased Wire) Chicago, July 26.—A clash after clash between witness and attorney occurred again today at the senate hearing on the impeachment of Senator Lorimer. The proceedings largely centered around the publication of the so-called confession of State Representative White of the Illinois legislature.

Just before the committee recessed, Mr. Hemeny, asked if the Tribune engaged Alfred Austin for its counsel in the White-Lorimer matter, because of the close relation of Austin's firm to the state attorneys office in Chicago, from which many indictments in the matter had emanated.

Mr. Keeley responded that Mr. Austin was employed by the Tribune as its counsel long before the White confession or the Lorimer election ever came up.

It is probable that heads of big stock exchange companies in Chicago will be called as witnesses to explain the use of "hard" money in the Lorimer election. Witness Keeley said representatives of the Ammons, Swift, Morris and other concerns might enlighten the committee.

## DICK TO DICK POSTSCRIPT IS WICKED UNTRUTH

President Taft Sends Special Message to Congress Today Explaining Controller Bay Affair.

### DOCUMENTS, REPORTS AND MAPS SUBMITTED

Chief Executive Shoulders Responsibility for Opening of Chugach National Forest in Alaska.

(By Evening Herald A. P. Leased Wire) Washington, July 26.—President Taft sent a special message to the senate today shouldering full responsibility for opening for settlement and development 12,800 acres of the Chugach national forest reserve in Alaska—an incident which has become known as the "Controller Bay Affair."

In concluding he brands the now famous "Dick to Dick" postscript as a "wicked fabrication" and says that Charles P. Taft, whose name appeared in the alleged postscript, has no interest in Alaska, never had, and knows nothing of the circumstances connected with this transaction. Moreover, the president adds, his brother does not even remember that he ever met Richard S. Ryan representing the Controller Railway & Navigation company.

As for eliminating the land in question from the reserve, the president says that there is no danger of the Controller Railway & Navigation company or any other interests monopolizing the field, and nothing to show that this company is in any way connected with the Morgan-Guggenheim interests. Hence, he believes that in eliminating the land he has acted for the best interests of the nation.

"I wish to be as specific as possible upon this point," says the president in his message, "and to say that I alone am responsible for the enlargement of the proposed elimination from 320 acres to 12,800 acres, and that I proposed the change and stated my reasons therefor. The thing which the history of Alaska needs is development, and where rights and franchises can be properly granted in a courageous investment and construction of a railroad without conferring exclusive privileges, I believe it to be in accordance with good policy to grant them."

Accompanying the president's message are documents, reports and maps bearing on the case, as requested from him by a senate resolution of June 27th last. "I deem it wise," says the message, "to accompany the submission of these documents with a statement in narrative form of the action of the administration with the reasons therefor." There follows a description of Controller Bay and environs and a map showing the effect of withdrawing the much needed 12,800 acres from the reserve. The president then takes up the thread of his narrative as concerns the events that precipitated the controversy.

He relates how Ryan, representing the Controller Railway & Navigation company, applied in 1909 for the elimination of a tract to enable this company to secure railroad terminus. The application was referred to the forestry bureau and then to the navy department with a view that perhaps the navy desired to use Controller Bay as a reservation. The forestry interests found an objection to the elimination of the tract indicated, or indeed, as the president writes, "the elimination of 15,000 acres in the northwest shore of Controller Bay."

The navy department's answer was "negative," says the president, and after the matter had been considered by the secretary of agriculture, the secretary of the interior, and the general land office, a recommendation was made to him that 320 acres with a frontage of 160 rods on the north-west shore of Controller Bay be thrown open. A formal order to this effect was finally submitted to him in October, 1910, and when the matter came before the cabinet late in that month he found objection to it. His reasons for taking this stand he explains in his message in part as follows:

"I expressed dissatisfaction with the order because it purported on its face to make the elimination for the benefit of a railroad company of a tract of land which the company could not by lawful entry secure, for it was a tract 320 acres in one body, when only 160 acres could thus be acquired. In the second place, I preferred to make a much larger elimination of a tract facing the entire channel, and with sufficient room for a terminal railway town. I was willing to do this because I found the restrictions in the law sufficient to prevent the possibility of any monopoly of either the upland or the harbor or channel by the Controller Railway & Navigation company or any other persons or company. Because of a

## BOXING LEGITIMATE SPORT NOW IN NEW YORK

Governor Dix Signs Bill Today Regulating the Fighting Game; State to Get in on Ticket Sales.

(By Evening Herald A. P. Leased Wire) Albany, N. Y., July 26.—Legislation of the fighting game in this state will now be able to witness sporting matches without fear of a hurried exit through the windows. The bill establishing a state athletic commission to regulate boxing and sporting matches was signed today by Governor Dix. The commission will be appointed by the governor. Matches are limited to ten rounds and gloves must weigh eight ounces. Each club of association must file a bond of \$10,000 with the state comptroller and the latter will collect 5 per cent of the total received from sale of tickets for the game.

Vegetable Men Are Fighting Ordinance

Bagpipers, Bottle Buyers and Others, Forbidden to Cry Their Wares, Go on Strike.

(By Evening Herald A. P. Leased Wire) Chicago, July 26.—Violence was renewed today in the peddlers' strike. Wagoners were accosted and vegetables destroyed in various parts of the city. The sufferers being peddlers who refused to quit attempting to do business while the strike is on.

A recent ordinance of the city council prohibits yelling and other excessive noise in the streets. Naturally, this almost put the vegetable peddlers, bagpipers and bottle men out of business and they have been fighting for a repeal of the ordinance, one method being refusal to peddle vegetables to householders.
